ATTIRE

You must wear comfortable shoes. It's not a complicated or long walk. It's important to wear dark colors to go unnoticed in nature. Avoid strident or fluorescent colors.

WHAT WILL WE DO?

— We will pick you up at 8:00am at your enchanting accommodation and we will go to truffle fields, inside the holm oak and oak woods in Osona. Our dogs will come with us.

— Together we will discover the secrets of the forest and we will show you how to read the trails the soil leaves for us. We will share anecdotes and secrets from our trade.

— We will tell you how and where truffles are born, how to move through the woods in order to find them, how to recognize a truffle place, how to know if we have found a good truffle and how to cook it.

— We will see how the dogs work live and, if we're lucky, you will be able to take the truffles out of the soil yourselves!

— In the middle of the morning we will have a farmer's breakfast in the woods with products from the county.

— Whether we find truffles or not, we will have some available for you to buy. (The truffles extracted during the escape will be property of Temps de tòfona).

— Around midday (approximately 12:30) we will be back to the meeting point.

— Here you will be able to get in touch with the chosen restaurant to enjoy the truffle menu.

— The chosen restaurants have a great reputation within the truffle cuisine.

During the escape pets won't be allowed.
